Work Experience

03.2018 – present Akelius http://akelius.de **Android teamlead and application architect**
Technologies: Java / Kotlin / Docker.

- ! Creating mobile application

- ! Creating build pipelines

- **!** Define tasks and goals

- **!** Release

10.2016 – 03.2018 Kisura http://kisura.de **Fullstack Developer**

Technologies: JavaScript / Angular 1.x / React / Jquery / SASS / PHP / Symfony / Doctrine / MySQL / MongoDB / Vagrant / Ansible.

- ! Creating frontend

- ! Creating backend API

- ! Creating DB

08.2012 – 07.2016 Peak Games http://peakgames.net **Senior Developer Development Team Lead**

Technologies: Actionscript 3 / Java / JSON / XML

- ! Creating web based games including casino slots

- ! Creating multiplayer backend servers for

- ! Creating business model flows

- ! Creating the game API framework

  Titles and platforms:

- ! GinRummyPlus - https://apps.facebook.com/ginrummyplus. Lead frontend developer

  and architect - Flash / ActionScript 3 / blitting / Signals.

- ! RummyPlus - https://apps.facebook.com/rummiplus. Lead frontend developer - Flash

  / ActionScript 3 / DisplayList.

- ! TavlaPlus - https://apps.facebook.com/tavlaplus. Frontend - Bugfixing and new

  features – Flash / ActionScript 3 / DisplayList.

- ! YuzbirPlus - https://apps.facebook.com/yuzbirplus. Frontend - Bugfixing - Flash /

  ActionScript 3 / Flex / DisplayList.

- ! HeartsPlus - https://apps.facebook.com/heartsplus. Frontend - developer, working on

  libraries and different modules – Flash / ActionScript 3 / Blitting and DisplayList.

- ! SpadesPlus - https://apps.facebook.com/spadesplus. Frontend - developer, working

  on libraries – ActionScript 3 / Blitting and DisplayList.

- ! Craps – the game is down. Lead frontend developer and architect – Flash / ActionScript 3 / DisplayList
- ! Roulette – Game is offline. Lead developer – Flash / ActionScript 3 / DisplayList.
- ! Blackjack – Game is offline. Lead developer – Flash / ActionScript 3 / DisplayList.
- ! Slots – Games are offline. Frontend and Backend developer – Flash / ActionScript 3 / DisplayList and Java / Netty.

10.2010 – 06.2012 Nokia http://nokia.com **Consultant**

Technologies: C++ / Qt / QML / JavaScript / JSON / XML.

- ! Worked on Nokia Maps for Meltemi and Meego (the last Linux phones of Nokia)
- ! Responsible for the post-drawing application handling and plugin architecture
- ! Responsible for all the feature integration with the core application.
- ! One of the release team – prepared and released every version of the final application.

06.2009-10.2010 B.E.R.S http://bers-soft.com **Senior Developer, Project Architect, Dev Team Leader**

Technologies: Lotus Domino 8.5.1, xPages, JavaScript, Java, PHP, MySQL. Controlled and lead 2 teams – web and mobile.

- ! Creating prototypes over xPages and Lotus Domino;
- ! Creating development estimations, specifications and plans;
- ! Creating backend and frontend Framework cores;
- ! Creating blackberry Domino database replications with conflict solving and merging;
- ! Controlling the teams and team tasks.

03.2005-08.2009 DotMedia dotmedia.bg **Senior Developer, Project Architect, Dev Team Leader**

Technologies: JavaScript, Java, PHP, MySQL, Postgre, C#, Flash / Flex, HTML. We provided a web based solutions and html – browser as a client.

- ! Controlling the technical development processes, estimations, specifications and plans
- ! Creating backend and frontend Framework cores
- ! Controlling the teams and team tasks Games and platforms:
- ! Multiplayer pool – Flash / ActionScript 3 and PHP for backend
- ! Escape the room variation – Flash / ActionScript 3 with xml configuration for levels

06.2003-03.2005 Pi-consult.bg pi-consult.bg **Developer, Dev Team Leader**

Technologies: JavaScript, Java, PHP, MySQL, C++, Flash / Flex, MsSql.

- ! Developing dynamic web based solutions for business workflows

- ！   Controlling the teams and team tasks
- ！   Worked on few small games in flash for a gaming platform for one of the customers –

variations of Donkey Kong, Snake, Bricks, Ping/Pong, Poker and similar – Flash / ActionScript 1 and 2.

09.2006 -10.2010 Technical University of Varna http://www.tu-varna.bg/ **Part Time Seminar Tutor** (8 hours/week).

Technologies: C#, .NET

Seminar tuition in C#. Web Based solutions with C# and .NET. Responsible for the final exams

03.2006 – 04.2007 National Academy for Software Development http://academy.devbg.org/ **Part Time Java Lecturer** (8 hours a week) for university or adult education courses. Responsible for course content, teaching and final exams.

Programming Practices

Scrum / Agile theoretical knowledge – participant of Scrum / Agile courses without certificate; Test Driven Development – participant of courses, practical know-how.

Education and Training

09.2004 – 06.2006 Technical University of Varna **Master of Computer Science and Technologies** Awarded: **Distinction**

Subjects: Algorithms, Java, C# Thesis: PHP 5 Application Library for Remoting and Remote Process Control. PHP 5 Application Library for Image Handling Abstraction over ImageMagick and GD2

09.2000 – 06.2004 Technical University of Varna **Bachelor of Computer Science and Technologies** Awarded: equivalent 2.1 (5.5) Courses: Computer architecture, algorithms, Java, C#, Pascal, computer graphics, cryptography...

Thesis: PHP 4 Application Framework for automation procession of pre-elementary operations and automation of processes and CRM workflows.

09.1995 – 06.2000 High School of Mathematics, Rouse, Bulgaria
